Over 140 Million products sold Worldwide

71 Countries

66 Years

Founded in 1959, Hawkins Cookers Limited is a professionally managed, public, listed Company. In the financial year ended March 2025, Sales were USD\$ 124 Million, and Profit After Tax USD\$ 12.8 Million. Hawkins is the leader in the Pressure Cooker market in India. Hawkins has diversified successfully into Cookware and Kitchen Appliances. Hawkins has offices in Mumbai and four factories in India.

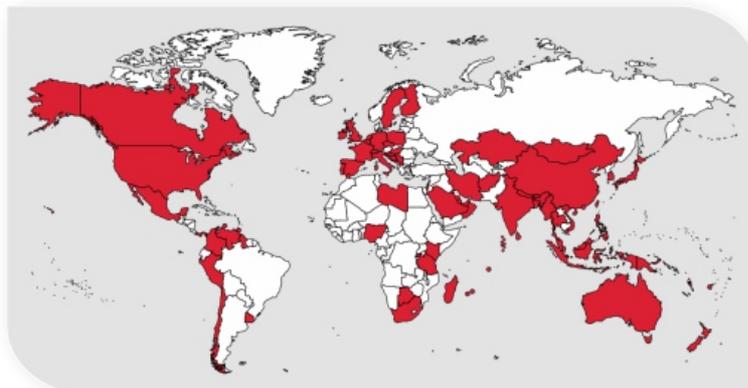

Hawkins has sold its products worldwide for over 66 years in 71 countries, including the USA, Canada, UK, Germany, Portugal,

Australia, New Zealand, Hong Kong, Singapore and the Middle East. All Hawkins pressure cookers are certified by UL & CE. All Hawkins products are made with pride in India.

Hawkins has over 400 models of pressure cookers & cookware, sold under the brand names Hawkins and Futura, and has recently forayed into kitchen electrical appliances. Many of these products are best sellers on Amazon, in India and across the world. Many Hawkins products have 4-plus global ratings from many thousands

of customers each, including thousands of entirely genuine 5 star reviews. Hawkins is also available offline through our network of Importers in the majority of these markets.

Hawkins is open to discussions to expand its presence across International Markets. Come meet us in the following International Exhibitions and let's explore how we can work together:

- **Indus Foods**, Greater Noida, NCR, India
January 8-10, 2026, Hall 6, Booth F21
- **Ambiente**, Frankfurt, Germany
February 6-10, 2026, Hall 8, Booth M61
- **Inspired Home Show**, Chicago, USA
March 10-12, 2026, McCormick Place (South), Booth S3616

Manufacturer and Exporter of Stainless Steel Kitchenware, Hotelware, Cookware, Storage, Thermoware, Tableware, Indoor & Outdoor Dustbins & Corporate Gift Products

INDIA RISES AS A GLOBAL POWERHOUSE IN HOUSEWARE MANUFACTURING & EXPORTS

Mangal Chaudhary
Co-Editor

Dear Importers,

Happy New Year 2026!!

India is rapidly positioning itself as a global hub for houseware manufacturing and exports, supported by strong domestic demand, competitive production costs, and increasing trust in Indian-made products. With India poised to become the world's third-largest economy in the near future, its growing industrial strength and market size are further boosting confidence among global buyers and investors. A key driver of this growth is India's robust manufacturing ecosystem, backed by a large skilled workforce, an expanding MSME sector, and increasing adoption of modern production technologies. Government initiatives such as Make in India, PLI schemes, and infrastructure development have significantly improved the ease of doing business and manufacturing efficiency.

India's houseware exports are witnessing steady growth across major markets including the USA, Europe, the Middle East, and Africa. Indian manufacturers are gaining recognition for their product quality, customization capabilities, competitive pricing, and compliance with international safety and sustainability standards, making them preferred partners in global supply chains.

The strong domestic market also plays a vital role in strengthening India's export potential. Rising incomes, rapid urbanization, and changing consumer lifestyles are driving demand for modern, functional, and stylish houseware products, allowing manufacturers to scale operations and invest in innovation and design. Looking ahead, as India moves closer to becoming the world's third-largest economy, its houseware manufacturing and export sector is set for sustained growth. With continued policy support, infrastructure upgrades, technological advancement, and a strong focus on sustainability and quality, India is well on its way to becoming a global powerhouse in the houseware industry.

Thank you

MD	:	Mr. Abhyuday Jindal
Name of Company	:	JINDAL STAINLESS LIMITED
Year of Established	:	1970
Type of Company	:	Manufacturing
Workers Team	:	19,125+
Nature of Business	:	Manufacturer of Stainless Steel Sheets and Coils
Main Product Lines	:	Stainless Steel HR Coil, CR Coils, Coin Blanks, Precision Strips, Blade Steel, Plates, Bloom, Slabs, Chequered Sheets, Girders, Rebars, etc.
Annual Production Capacity (Mt)	:	3 MTPA
Now Production	:	3 MTPA
Main Export Markets	:	Italy, Poland, Spain, Germany, Belgium, Russia, USA, Canada, South Korea, Brazil, Turkey, and UAE

About Jindal Stainless:

India's leading stainless steel manufacturer, Jindal Stainless, had an annual turnover of INR 40,182 crore (USD 4.75 billion) in FY25 and is ramping up its facilities to reach 4.2 million tonnes of annual melt capacity in FY27. It has 16 stainless steel manufacturing and processing facilities in India and abroad, including in Spain and Indonesia, and a worldwide network in 12 countries, as of March 2025. In India, there are ten sales offices and six service centres, as of March 2025. The company's product range includes stainless steel slabs, blooms, coils, plates, sheets, precision strips, wire rods, rebars, blade steel, and coin blanks.

Jindal Stainless relies on its integrated operations to enhance its cost competitiveness and operational efficiency. Founded in 1970, Jindal Stainless continues to be inspired by a vision for innovation and enriching lives and is committed to social responsibility.

Jindal Stainless remains focused on a greener and sustainable future. The company manufactures stainless steel using electric arc furnace, a process that significantly reduces greenhouse gas emissions and allows for recyclability of scrap without compromising on quality.

Facilities Production Technology:

- The Company has two facilities for manufacturing of high quality stainless steel. Scrap is melted in ultra-high powered Electric Arc Furnaces with co-jet facility. For refining, it utilizes top and bottom blown Argon-Oxygen Decarburization (AOD) Converter. In addition, it is also endowed with Vacuum-Oxygen Decarburizing (VOD) unit for achieving very low content of Carbon, Hydrogen and Nitrogen. De-oxidation is carried out by high speed multiple wire-injection units and refined steel is continuously cast in slab and bloom caster.
- Cast slabs are Grit-Blasted/Ground using constant power grinding machine. Hot rolling of slabs is carried out in a unique Steckel mill provided with Walking Beam Reheating furnace, Roughing Stand and Twin Steckel Stands. Blooms are hot rolled in a 5-stand Semi-continuous Hot Strip Mill.
- Hot Rolled coils are annealed & pickled in continuous Annealing-Pickling lines having scale breaker, shot blasting unit, Electrolytic Sulphuric Acid and Mixed Acid bath. Annealed and Pickled coils are cold rolled in Sendzimer cold rolling mills provided with shape meter for high degree of flatness.
- Annealing & Pickling of cold rolled coils is carried out utilizing Neutral Electrolytic Salt Bath followed by Electrolytic Nitric Acid and Mixed Acid Baths. There is provision of online/offline Skin Pass Mills and Tension Leveler to produce world class lustrous products. Other facilities include Bright Annealing units in cracked ammonia atmosphere and Strip Grinding line to produce desired surface finishes.
- Batteries of Bell Annealing furnaces for annealing ferritics and martensitic grades and Slitting & Shearing lines are provided for finishing the products.

Business Award If Any:

- Golden Peacock National Training Award 2021 given to JSL by Institute of Directors, India
- International Safety Award 2020 & 2021 given to JSHL by British Safety Council
- 'Aeo-2 tier recognition' from International Customs, Department of Revenue (Ministry of Finance) given to JSHL
- 'Smart Importer - Steel Scrap' award given to JSL at Smart Logistics Awards 2019
